

The right wing control of the media by the Republican Party is never more evident than the proposed airing of a "documentary" about Senator Kerry. This a violation of my rights to a fair and unbiased repor using MY airwaves. Thsis is nothing but a ploy by Bushies and Powell to control public airways for partisan gain. Media monopolies such as Sinclair show how control of the airwaves by Monopolies must be turned back. The airways belong to the public; when Sinclair violates the public airways, we must take them back from the right wing, and from FCC Chair Powell. Sinclair can run but they cannot hide from the public.
